

ECLAIRA: the circular economy network in Auvergne-Rhône-Alpes

In Auvergne-Rhône Alpes, the economic and energy transition of companies and regions is both a necessity and a real opportunity in terms of employment and resources, economic development, regional planning and sustainable development.

In this context, the circular economy opens the way to a more respectful model of people and resources. It invites us to build sustainable, local cooperation between all people working in the area. The many initiatives already begun at regional level by companies, local authorities and associations bear witness to this.

ECLAIRA, the circular economy network in Auvergne-Rhône-Alpes was created as a networking tool to share existing initiatives, mobilize a wide range of stakeholders and support new regional and local initiatives.

You can access the website (available in FR and EN) at: <https://www.eclaira.org/index,en.html>

AURA-EE, the Auvergne Rhône-Alpes Energy Environment Agency is a member of the ECLAIRA network.

Who is ECLAIRA aimed at?

ECLAIRA is for:

- Local and regional authorities;
- Economic developers, planners, company clubs and networks;
- Innovation networks: clusters, competitiveness centres;
- Companies and associations engaged in projects;
- Experts: technical centres and resource centres, energy and environmental agencies, universities, colleges and special skills centres.

Why should I sign up to the ECLAIRA platform?

As a member of the platform, you will have access to a range of services provided by ECLAIRA:

- You can follow news of the circular economy and identify opportunities;
- You can showcase your company regionally and internationally;
- You can join people working in this field and participate in the network;
- You can forge partnerships and join project communities;
- You can have access to tools and methodologies for implementing projects;
- You can get feedback and highlight your achievements.
